

# Geometric Structures related to Hermitian and Almost Hermitian Manifolds

May 17 – May 20, 2016  
Hannover

## Confirmed Speakers

### Mini Courses

#### Constructions of Quaternionic Kähler Manifolds

Vicente Cortés (University of Hamburg)

#### Almost Hermitian Metrics and Twistor Spaces

Simon Salamon (King's College London)

### Research Talks

Daniele Angella (University of Florence)

Giovanni Bazzoni (Ludwig-Maximilians University Munich)

Thomas Bruun Madsen (University of Aarhus)

Liana David (Stoilow Institute of Mathematics of the Romanian Academy)

Ana Cristina Ferreira (University of Minho)

Marco Freibert (Christian-Albrechts University Kiel)

Alexandra Otiman (University of Bucharest)

Mihaela Pilca (University of Regensburg)

### Organizers:

Roger Bielawski

David Petrecca

Markus Röser

Lars Schäfer

There will be a poster session.
